**REQUEST FOR A CORRECTED OR REVISED PATENT APPLICATION  
PUBLICATION UNDER 37 C.F.R. §1.221(b)**

Sir:

Certain errors appear in the patent application publication identified above. These errors were through mistakes incurred by the Patent Office. The errors appear in the Abstract, and are apparent from the USPTO records. Applicant therefore requests a corrected patent application publication under 37 C.F.R. §1.221(b), for which there is no fee.

For the convenience of the office personnel, the necessary corrections have been set forth on the attached page no. 3 marked "Abstract".

It is respectfully requested that a corrected patent application publication be granted for the above-identified application, in accordance with 37 C.F.R. §1.221(b). This request is made in order to correct the mistakes incurred through the fault of the Patent Office.

It is not believed that fees are required, however, any required fees therefore are hereby authorized to be charged to Deposit Account No. 16-1852.

Respectfully submitted,

Steven Callstein

### Abstract

According to the invention, there is provided a novel soybean variety, designated XB06H04. This invention thus relates to the seeds of soybean variety XB06H04, to the plants of soybean XB06H04, to plant parts of soybean variety XB06H04 and to methods for producing a soybean plant produced by crossing soybean variety XB06H04 with another soybean plant, using XB06H04 as either the male or the female parent. This invention also relates to methods for introgressing a transgenic or mutant trait into soybean variety XB06H04 and to the soybean plants and plant parts produced by those methods. This invention also relates to soybean varieties or breeding varieties and plant parts derived from soybean variety XB06H04, to methods for producing other soybean varieties or plant parts derived from soybean variety XB06H04 and to the soybean plants, varieties, and their parts derived from use of those methods. This invention further relates to soybean seeds, plants, and plant parts produced by crossing the soybean variety XB06H04 with another soybean variety.
